## Web applications built

**JamBook** - <https://jambook-new.herokuapp.com/>

- A clean social media app built with React.js
- The goal of the app is to connect musicians who are looking for other musicians to collaborate with
- I oversaw the front-end and complete design and feel of the web application

**EpicGG** - <http://dgabai1.github.io/GamingVideos/>

- A streaming entertainment web application. EpicGG utilizes three different API's
- This application pulls the most current streamers from YouTube and Twitch.tv. MapBox.gl is integrated to show the location of upcoming E-Sports events in the United States along with a calendar of dates

**Speak Up** - <https://gt-speakup.herokuapp.com/>

- Built an app for anonymous chatting
  - This application utilizes Materialize Google's CSS framework and Socket.io for the instant communication
  - I designed the logo, all the images, and the universal design of the web application
- 

## Work Experience

*McMaster - Carr Supply* - Capacity Coordinator

April 2014 – Feb 2017

- Managed incoming workflow and balance for all customer facing departments.
- Developed tools and predictor models to analyze incoming work flow with unplanned disruptions.
- Maintained constant communication with all department heads on daily operation plan
- Advanced to floor supervisor after two years
